CAREER OBJECTIVE

Highly skilled web developer with **3+ years** of experience specializing in the **MERN stack (MongoDB, Express.js, React.js, Node.js)**. Proven ability to develop responsive, scalable applications, optimize front-end performance, and implement efficient back-end solutions. Seeking to leverage technical expertise and innovative problem-solving skills to deliver cutting-edge web solutions and drive business success.

EXPERIENCE

2022 - PRESENT

Codeclouds IT solutions pvt. ltd

Web developre | November 2022

- Created **SaaS e-commerce applications** utilizing headless e-commerce services and integrated the **GitHub API** to dynamically generate websites, resulting in over a 30% boost in development efficiency.
- Enhanced back-end performance through the implementation of **backend clustering**, which improved processing efficiency.
- Employed **CI/CD pipelines (Continuous Integration/Continuous Deployment)** for smooth and automated deployment processes.
- I have deployed and managed websites on **serverless platforms like Vercel**, which increased site scalability and reduced hosting expenses by 25%.
- Analyzed SEO performance with tools such as **Google Analytics, SEMrush, and Ahrefs** to ensure ongoing optimization and adherence to best practices, leading to an approximate 20% rise in organic traffic.
- Worked collaboratively with cross-functional teams to improve both **front-end** and **back-end** performance, enhancing the overall user experience.

2022 - 2022

Devant IT Solutions Pvt. Ltd.

Associate software engineer | July 2022 - November 2022

PHP developer | January 2022 - November 2022

- Developed and maintained a high-performance shipment tracking system using **Laravel/PHP**, improving shipment visibility and reducing processing time by 30%.
- Integrated **third-party platform APIs (e.g., payment gateways, logistics services)** to enhance system capabilities and interoperability.
- Engineered **data synchronization** processes for over 12 warehouses achieving a great accuracy rate in data updates and reducing synchronization errors.

2021 - 2021

Ejobindia

Web development training | March 2021 - August 2021

- Completed Professional web development training.
- Gained in-depth Knowledge of various types of technologies like CodeIgniter, HTML, CSS, JS, PHP, HTML, CSS, Bootstrap, Ajax, MVC, JQuery, API.
- Worked on a live project and developed a covid vaccine booking web application and also developed a blog website (cms) using CodeIgniter.
