FULL STACK ENGINEER | REACT.JS

Full Stack Engineer with 5+ years of experience delivering end-to-end features for scalable, cloud-first web applications. Strong expertise in React.js, JavaScript (ES6+), REST APIs, Node.js and AWS services, including Lambda, API Gateway, DynamoDB, and S3. Proven ability to collaborate with business and IT stakeholders, implement enhancements, fix production issues, and deliver high-quality, well-tested solutions in Agile environments.

SKILLS

- **Frontend:** React.js, JavaScript (ES6+), Hooks, Redux Toolkit, Context API, Next.js, HTML5, CSS3
 - **Backend:** Node.js, Express.js, Python, Flask, PHP (Laravel)
 - **AWS:** IAM, S3, Lambda, API Gateway, DynamoDB, SNS, SQS, EKS
 - **Testing:** Jest, React Testing Library, Cypress
 - **DevOps / CI-CD:** Git, GitHub Actions, Azure DevOps, Docker, Jenkins
 - **Build Tools:** Webpack, Babel, npm, yarn
 - **Databases:** MongoDB, SQL
 - **Methodology:** Agile / Scrum
-

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS)

March 2026 - Present

I.T Analyst | March 2026 – Present

Working as a Full Stack Developer, building scalable web applications using modern technologies like Next.js and Node.js, focusing on performance, maintainability, and user experience.

Accomplishments:

- Developed full-stack applications using Next.js, Node.js, and MongoDB/PostgreSQL, improving
- Worked on debugging, testing, and maintaining applications to ensure reliability and scalability.
- Optimised application performance through code splitting, caching strategies, and API optimization.

Codeclouds IT solutions pvt. ltd

November 2022 - March 2026

Web developer | November 2022

Developed and optimized **SaaS e-commerce applications** using headless services, **CI/CD** pipelines (GitHub Actions, Azure DevOps), and serverless platforms like Vercel, improving efficiency and scalability. Enhanced SEO, backend performance, and cross-functional collaboration, leading to a **20% increase** in organic traffic.

Accomplishments:

- Developed and optimised SaaS e-commerce applications using React.js, Redux Toolkit, and Next.js, improving scalability and maintainability, resulting in over a 30% boost in development efficiency.
- Enhanced back-end performance through the implementation of **backend clustering**, which improved processing efficiency.
- Implemented **CI/CD pipelines** with **GitHub Actions & Azure DevOps**, enabling automated deployments and reducing release cycle time.
- I have deployed and managed websites on **serverless platforms like Vercel**, which increased site scalability and reduced hosting expenses by 25%.
- Wrote unit and E2E tests (**Jest, React Testing Library, Cypress**) to ensure quality and maintainability.
- Enhanced component performance with lazy loading, code splitting, and bundle optimisation, ensuring cross-browser compatibility.

Devant IT Solutions Pvt. Ltd.

January 2022- November 2022

Associate software engineer

Lead operations, achieving growth of 180% in two years. Hired a new application consultant to help improve team capabilities.

Accomplishments:

- Developed and maintained a high-performance shipment tracking system using **Laravel/PHP**, improving shipment visibility and reducing processing time by 30%.
- Integrated **third-party platform APIs (e.g., payment gateways, logistics services)** to enhance system capabilities and interoperability.
- Engineered **data synchronization** processes for over 12 warehouses achieving a great accuracy rate in data updates and reducing synchronization errors.

Ejobindia

March 2021 - August 2021

Web development training

Developed a COVID vaccine booking web application and a blog CMS using CodeIgniter while gaining hands-on experience with modern web technologies.

Accomplishments:

- Completed Professional web development training. Gained in-depth Knowledge of various types of technologies like CodeIgniter, HTML, CSS, JS, PHP, HTML, CSS, Bootstrap, Ajax, MVC, JQuery, API. Worked on a live project and developed a covid vaccine booking web application and also developed a blog website (cms) using CodeIgniter.

PROJECTS

AI-Powered Text Formatter Extension (Tech Stack: React, Node.js, Local LLMs, Chrome Extension API)

Description: Built a Chrome extension that enhances text readability and grammar using Ollama.

Key Features:

- Provides real-time grammar and tone suggestions.
- It supports various writing styles, including personable, confident, and direct.
- It also corrects grammatical mistakes in paragraphs.
- **GitHub/Live Link:** <https://github.com/Supratim-Pathak/Web-AI-writer>

Max RBAC - Role-Based Access Control npm Package (Tech Stack: Node.js, MongoDB, NPM)

Description: Developed an open-source Node.js package for managing role-based access control (RBAC) with MongoDB.

Key Features:

- Provides a flexible role-permission system for secure access management.
- **GitHub/Live Link:** <https://www.npmjs.com/package/max-rbac>

Online JavaScript Editor (Tech Stack: React, Node.js, Vercel)

Description: Developed a web-based JavaScript editor that allows users to write, edit, and execute JavaScript code in real-time.

Key Features:

- Supports instant code execution within the browser.
- Provides a user-friendly interface with syntax highlighting.
- **GitHub/Live Link:** <https://js-editor-online.vercel.app/>

Online Code Editor (Tech Stack: React, Node.js, Monaco Editor, Vercel)

Description: Developed a web-based code editor that allows users to write, edit, and execute HTML, CSS, and JavaScript in real-time.

Key Features:

- Provides a user-friendly interface with syntax highlighting using Monaco Editor.
- Enables real-time editing of HTML, CSS, and JavaScript.
- **GitHub/Live Link:** <https://online-code-editor-seven-ruby.vercel.app/>

EDUCATION

Adamas institute of technology | 2nd November 2018

Bachelor of Technology | C.G.P.A: 7.40
